

Key Control for Fleet Managers

Save money by increasing efficiency

The Elante key storage tube is specifically designed for fleet key control. It is permanently mounted onto vehicles, so you can save time by reducing the search for keys. This means that vehicles can be accessed by service personnel quickly, reducing costs and getting them back in operation sooner.

The master key to the Elante storage tube is a Title key. Each fleet is assigned a unique code which corresponds to a key cut. Title keys are cut by a proprietary machine and cannot be copied. The lid cover shields the Title lock mechanism from the elements.

Large capacity, low profile design

The Elante key storage tube's solid metal construction and flush-mounting capability offer a permanent, discreet key storage solution for multiple keys.

Provides quick access to all vehicles for:

- Preventive maintenance
- Mechanics and service technicians
- Vendor/contractor access
- Key control for multiple drivers
- Emergency spare key

Elante Key Storage Tube

P/N 002243

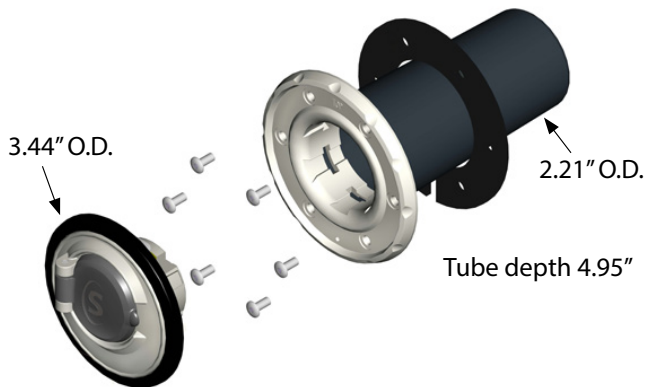

Easy installation in a variety of vehicle locations

Designed with input from fleet managers and maintenance technicians, the Elante key storage tube can be permanently installed in minutes, in a variety of vehicle locations. Complementing most vehicle designs, the Elante key storage tube's white exterior matches many commercial and industrial fleets. The sealed lid provides excellent weather resistance.

The Elante key storage tube is easily installed on all types of vehicles including vans, trucks, carriers, boom trucks and buses.

Permanently-mounted key storage tube keeps keys where you need them.

Elante Plate Frame

The Hinged License Plate Frame accessory hides the Elante key storage tube for concealed access without drilling visible holes. Ideal for passenger cars and trucks.

Supra delivers more KeyBox choices

KeyBoxes offer an ideal key management solution for an enormous variety of industry applications — utilities, phone companies, service providers, schools, government motor pools, and more.

Supra fleet KeyBoxes give you the ability to quickly access vehicles without managing cumbersome key boards or bulky key rings. Best of all, our KeyBoxes are simple to operate. Supra offers a range of KeyBox products and styles to suit any fleet need.

Max Mechanical KeyBox

An alternative to the Elante key storage tube, the popular Max mechanical KeyBox is the perfect solution for a surface-mount KeyBox. Its unique one-piece construction and hinged lid provide durability and ease of use.
