

A unique key control system

Supra is the established leader in managed key control and has over 5,000 customers worldwide. The renowned one-key convenience of our KeyBoxes helps in any situation dealing with a large number of vehicle keys.

The Title® key system utilizes a unique code restricting access to only those with the proper key. A lid cover shields the Title® lock mechanism from corrosion while the padded foam back prevents damage to the vehicle window.

Instant Access to Every Vehicle

Benefits for all areas of your dealership

New and used car departments

- Keep salespeople with prospects
- Easily move prospects from car to car
- Give more professional sales presentations
- Ignition keys are available at a moment's notice
- KeyBoxes save time and money

Service department

- Keys stay with car throughout service process
- Technicians no longer hunt for keys
- Keys remain with car for customer pickup

Max™ — Industry standard

Over the past 30 years, the MAX has proven itself in the automotive market. No other KeyBox can match the MAX for its durability and ease of operation. Its unique one-piece construction and hinged lid are rust resistant and finished with a high impact polyurethane powder coat for long-lasting service. The interior of the box is weather stripped to protect contents from the elements.

Max

Indigo™ — Ease of use

The Indigo is made from a special aerospace aluminum alloy. It is ultra lightweight and has the largest storage capacity of any of our mechanical KeyBoxes. Indigo features our Snap Shut locking system designed to accommodate dealerships that remove keys nightly. Lot attendants open Indigo using their master key, retrieve vehicle keys and leave the box open. The next morning, vehicle keys are placed back inside the Indigo and the lid is snapped shut! Master keys can be coded to match current MAX and Magnum KeyBoxes.
