

Save money by increasing efficiency

The Elante is a permanently mounted key storage tube designed specifically for fleet key control. Save hours each month by eliminating the search for keys. When vehicles are serviced efficiently, they're back in operation sooner and service costs are reduced.

The master key to Elante is a Title® key which utilizes a unique code restricting access to only those with a key assigned to their particular fleet. The lid cover shields the Title® lock mechanism from the elements.

Large capacity, low profile design

The Elante's solid metal construction and flush-mounting capability, offers a permanent, concealed key storage solution for multiple keys.

Provides quick access to all vehicles for:

- Preventive maintenance
- Mechanics and service technicians
- Vendor/contractor access
- Key control for multiple drivers
- Emergency spare key

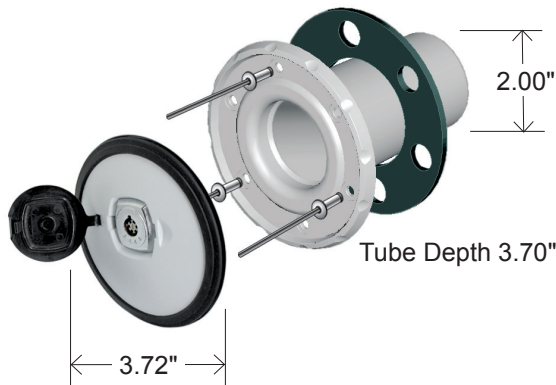

Key Control for Fleet Managers

Easy installation in a variety of vehicle locations

Designed with input from fleet managers and maintenance technicians, Elante permanently installs in minutes, in a variety of vehicle locations. The exterior of the Elante compliments most vehicle design and the white color matches most commercial and industrial fleets. The sealed lid provides excellent weather resistance.

The Elante is easily installed on all types of vehicles including vans, trucks, carriers, boom trucks and buses.

The Industry Leader in Automotive KeyBoxes

Fleet KeyBoxes give you the ability to quickly access vehicles without managing cumbersome key boards or bulky key rings. Best of all, our KeyBoxes are simple to operate.

KeyBoxes are available in two different models to suit any fleet need. KeyBoxes offer an ideal key management solution for an enormous variety of industry applications — utilities, phone companies, service providers, schools, government motor pools, and more.

Elante

Permanently mounted key storage tube keeps key where you need them.

Elante Plate Frame

The Hinged License Plate Frame accessory hides the Elante key storage tube for concealed access without drilling visible holes. Ideal for passenger cars and trucks.

MAX™

The perfect solution for a surface-mount KeyBox. Its unique one-piece construction and hinged lid provide durability and ease of use.
