

## Supra KeyAdvantage:

# Alamo Toyota increases sales and efficiency with KeyAdvantage

“We have over 40 salespeople that can now spend more time with our customers!”

Alamo Toyota has upgraded to KeyAdvantage for our new 24 acre facility. This has greatly improved our lot efficiency; and more importantly, has increased our level of customer service and sales. We have over 40 salespeople that can spend more time interacting with the customer instead of leaving them to find keys.

There is no doubt that having the KeyAdvantage system has made a more efficient and productive dealership. We now have the controls we need with a system that complements the sales process
